About Me

I'm a software developer with **2 years of experience in full-stack development**, specializing in Next.js and React.js. I excel at API integration, am a team player, and a passionate problem solver. Eager to adapt to new technologies and contribute my skills to create exceptional software solutions.

Professional Experience

BrsikGrid Solution Pvt. Ltd. | Associate Software Engineer
Nov' 2022 – Nov' 2023 (1 years)

Key responsibilities:

- Design and develop web applications using **Next.js and React.js**
- Implement and maintain **API integrations** for improved functionality
- Collaborate with the development team to troubleshoot and resolve **technical issues**
- Write clean, efficient, and maintainable code
- Stay updated on emerging technologies and best practices in software development"

Persistent Systems | Summer Internship
2023 – 2023 (3 Months)

Key responsibilities:

- Comprehensive training in core **Java, Linux system administration, DBMS, and data structures & algorithms (C)**.
- Applied acquired knowledge to contribute to real-world software projects and optimize code.

DevTown | Full Stack Developer Intern
2021 – 2022 (5 Months)

Key responsibilities:

- Received extensive training in web development technologies, including HTML, CSS, **JavaScript**, and React.js, leading to the creation of my first web application.
- Independently developed multiple websites from the ground up, utilizing React.js, Redux for state management, and **MongoDB** for data storage and retrieval.

Projects

Acunetix 10.0 | A college fest website where participants can register for the event from the website Nov' 22

- Streamlined website navigation for users to easily access event information and registration forms.
- Enabled real-time updates for event availability and registration status.
- Implemented email notifications for event confirmations and reminders for registered users.

CSI Website | A Website built for CSI and CSI Blog using Sanity.io and Next.js. Mar's 23

- Created a website for CSI and a blog using **Sanity.io and Next.js**, facilitating club information sharing and blog posts.
- Designed an admin dashboard for easy blog management, enabling admins to upload, edit, and delete content effortlessly.
